RETAIL PRICE LIST FOR 1932

Hopedale Nurseries

J. W. GRIESEMER, Prop.
HOPEDALE, ILLINOIS.

NO SUNDAY SERVICE. NO HELP AT HAND HERE SUNDAY.

Trustworthy Trees & Plants — Member American Association of Nurserymen

Last year I announced boldly that I was closing out. It is still my intention to close out the general line of nursery as soon as I can. BUT this is a mighty slow process in times like these! It will be years before I can make a clean sweep of it unless sold to some other, who would likely carry on at the old stand. MEANWHILE I will carry on, and so long as I send this invitation for your business, will be equipped to take care of your wants. As sorts get low, items will be secured to take care of you throughout the season.

Times are simply terrible for nurserymen, as well as farmers. Very many nurseries are out of business. Others are in the hands of receivers. You will have many offers of cheap stock, but stop to think a bit; IS it really cheap? In the past I have been liberal in helping you to make selections, giving customers the benefit of my 37 years' experience in this line and this community. Often I have talked myself out of a sale because I told the whole truth as nearly as I knew it. Still, I got by, and I want to tell you how very much your confidence in me and your STAYING customers have helped me. So very many opportunities are ever present for the nurseryman to make a sale by an elusive word, or even by just not saying anything. The average customer simply knows very little of sorts, and takes often the view of some high powered salesman on the merits of methods, sorts, etc.

Hopedale Nurseries are human, and make mistakes—lots of them. We are always ready and glad to correct them, IF they prove to be our mistakes. We do not like to stand for mistakes of others, though. Sometimes it is necessary. If we have made a mistake with you, we want to correct it. Tell us about it.

If I were younger, right now would be the time I would want to go into the nursery business, to have the stock ready for the demand that is sure to follow this depression. It is bound to be high. Too many nurseries are closing out. When the demand does come, stock will be scarce and high, in fact hard to get, as it was from 1920 to 1927-8. I am no prophet, but this seems plain.

RIGHT NOW is the time for planting. Reduced farm profits, in fact changed to losses, make it imperative that farmers especially, plant orchards for their own use. It cuts the cost of living. DO IT NOW. Good stock may be had at less than it cost to grow it. In fact, nearly all of it was grown when labor was high. We have to take our loss. The profits of the good years will need to carry us through this time of loss.

Don't be fooled by cheap bankrupt sales. Strangers have it and know little or nothing about the stock, or how to handle it. Anything will go! Suppose you want a Delicious Apple and get a Ben Davis; a Mugho Pine and get Scotch Pine; a Spirea Billardii and get Van Houtii? What is the loss in time, effect and money? Too much to think about. Be careful. Try to not get so badly cheated in times like this.

TERMS: 5 of a sort at 10 rate; 50 or over at 100 rates. Prices are for stocked packed to go safely in your rig, or delivered to carriers, free. All transportation to be paid by customers, unless otherwise agreed. For Parcel Post, be sure to send enough to cover postage. Anything left will be returned to you.

Trees over 3 inch diameter, **not packed for freight shipment** at the prices named. See under ornamental trees.

CASH unless by agreement. CASH counts now and we are offering 1% discount for cash with orders received before March 15th of $10.00 or over 2% on orders from $11 to $35; 3% on orders from $36 and up. Orders received March 1st to 15. No discount after that date. Time sales bear interest from date of sale at 7%.

HOPEDALE NURSERIES — BEST FOR RESULTS — HOPEDALE, ILLINOIS

LARGE ORDERS had best be submitted for special quotations, which will be net.

OTHER SORTS and GRADES—We still have some items left in many other sorts and grades that are not listed in this list. Not enough to list. If you want other sorts or grades, tell us about it. We may have them, or can secure them for you. For example, we have a fine lot of very large ornamental trees, too large for most of the retail trade. Will be glad to quote on them. Also many of the old sorts in Apple and other fruits, too few to list. Ask for what you want. We will advise at once what we can do.

DISCOUNT: It helps. We need money very much. Take advantage of the discounts offered.

GUARANTEE: We guarantee all stock to be genuine sort sold, in good, vital condition and packed to reach you safely. In event mistakes have been made, we stand ready to replace the true sort free of cost, delivered to carriers. It is mutually understood we are not responsible for any greater amount. We do NOT guarantee the growth of stock. Too many things can happen to it after leaving our hands for this to be fair to anyone. If stock is ruined by delay of bad handling, we will help you get your claim through. Have had much experience in this.

It often saves time in filling orders, if you name second choice in sorts, in event we are sold out. Also state whether we may put in some other size, in event we are out of the size named in a sort. Help us to help you by doing this. If no substitutions in either sort or grade, say so. We want to please you.

TREES ABOVE 3 in. caliper are NOT packed for freight shipment at these prices. Often the cost of packing them so, is more than the cost of the trees. Trees of this size are packed to take on hayrack or truck at no additional cost.

ORDER EARLY: Safest for you and best for us.

NO SUNDAY SERVICE: Have no help here Sundays and proprietor is often away.

J. W. GRIESEMER, Proprietor.

FRUIT DEPARTMENT

Farm orchards have been shamefully neglected. Too easy to raise corn and buy fruits. BUT the time is now when corn and other grains do not sell for the cost of production. It is economy to raise fruit, and it is a convenience as well. Fruit is ALWAYS at hand from your orchard. When you depend on buying, too many times you are out. If you buy many, they rot in Summer and Fall. Have your own and be safe and save this cash.

Yellow Transparent Apple

Not only Apples should be planted, but ALL fruits. Take care of it. It will give you health, happiness and satisfaction as well as cash saving. Cash Counts.

APPLES AND CRABS

Caliper (diameter) is measured. Height is estimated, as the usual height.

	Each	10	100
11-16 in., 5-7 ft.	$ .50	$4.50	$40.00
5-8 in., 4-5 ft.	.40	3.50	30.00
XX Heavy	.65	6.00	

XX Heavy only in some sorts. List sent if wanted.

SUMMER SORTS—Duchess, Early Harvest, Liveland Raspberry, Red Astrachan, Red June, Sweet June, Yellow Transparent.

FALL SORTS—Autumn Strawberry (Chenango), Belleflower, Domine, Fulton, Gravenstein, Maiden Blush, Rambo, Snow, St. Lawrence, Talmans Sweet, Twenty Ounce, Wealthy, Wolf River.

WINTER SORTS—Aiken, Arkansas Black, Baldwin, Ben Davis, Delicious, Delaware Red (Lawyer), Grimes Golden, Gano, Ingram, Jonathan, Little Romanite, Mammoth Black Twig, Missouri Pippin, M. H. Pippin (Yel. Sweet), Minkler, Northern Spy, N. W. Greening, Rawles Janette, Roman Stem, Staymen, Tazewell, Winter Winesap, White Pippen, Willow, Winter Banana, York Imperial.

We have some other sorts and also other sizes in many of these. Ask for what you want in sorts or sizes.

SORTS IN CRABS—Florence, Mammoth Wild, Montreal Beauty, Whitney, Yel. Siberian and Wild. Still have a few in some other sorts.

PEARS

While Pears do not usually add to your profit and pleasure like Apples, they are still very worth while. Many growers do well here in their own way. Dwarf Pears are useful for early bearing and where crowded for space.

PEARS STANDARD

	Each	10
11-16 in., 5-7 ft.	$ .75	$7.00
5-8 in., 4-5 ft.	.65	6.00

Also some others—small amounts. Few in XX grade and ½ in.

SORTS—Bartlett, Clapps, Duchess, Garber, Kieffer, Seckel, Sheldon.

LINCOLN—Genuine XX grade, $1.75; 11-16 in. $1.35; ½ in. $1.00.

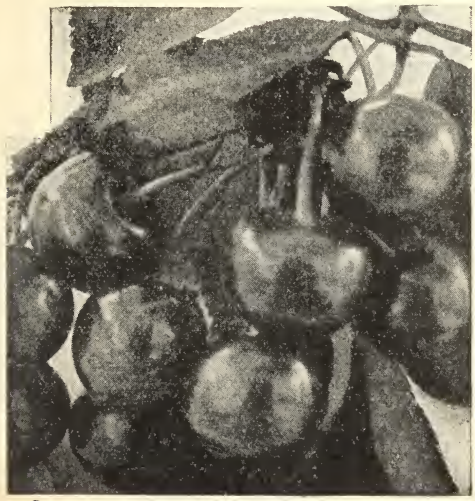
PEARS DWARF

DUCHESS, XX, $1.25; 11-16, $1.00; 5-8, 60c; 1-2 in. 40c.

A few Bartlett Dwarf in 5-8 and 1-2 in. at same prices. We also have a few in other sorts—too few to list.

CHERRIES, SOUR

By all means plant these, and don't wait till trees are gone to plant others. Too valuable to loose out on. Bear early and abundantly. What could add more to your health, pleasure and economy? Keep well to the sour sorts. They won't disappoint, if you give them a chance.



Montmorency Cherry

Elberta Peaches

	Each	10
11-16 in., 5-7 ft.	$ .60	$5.50
5-8 in., 4-5 ft.	.50	4.50

Montmorency, Morilla and Richmond.

Also, too few to list, in three other sorts.

CHERRIES

SEMISWEET AND SWEET

11-16 in.	75c each
5-8 in.	60c each

Black Tartarian and Gov. Wood.

A few in XX grade $1.25 each, not in all sorts.

PLUMS

The finer sorts bore exceptionally well last year. Who has not tasted them so recently that the "Smack" of the lips is not still vividly in memory? The plainer sorts are much more reliable, tho, require less care to insure success. Plant PLUMS, too.

	Each	10
11-16 in.	$ .50	$4.50
5-8 in.	.35	3.00

Abundance, Damson, Burbank, German Prune, Lombard, Red June, Wild Goose.

Small lots in other sorts and grades.

XX Grade, 75c each in Abundance, German Prune and Red June only.

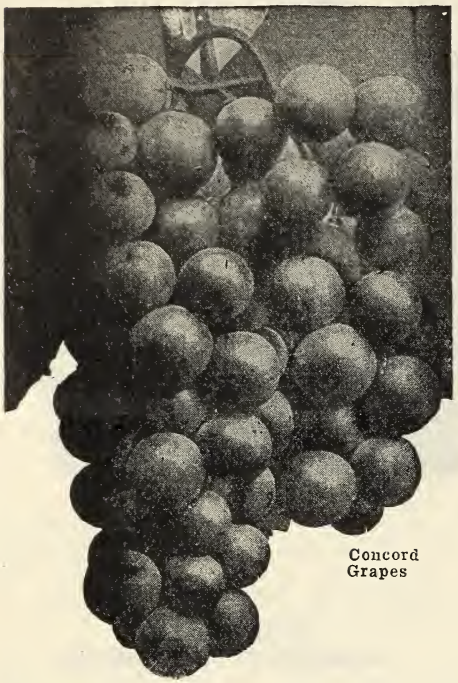
PEACHES

Did we have PEACHES last year? Oh Boy, I'd say we DID! I have just been out too look at them (Feb. 2nd.) expecting to find them largely killed, account of the sudden and severe drop in temperature—60 above to 1 above, about as severe a test as we could have. I found them alive almost to a unit. Of course they still could be killed, but it is not likely. This covers Japan Plums and Budd Apricots also. Of course the trees were rested last year and bore altogether too many fruits. There will be no such crop on account of the strain of last year's crop.

Why do I write this? Well, the moral is plain PLANT PEACHES. If they bear one crop in 7 years, you more than get your money back, with rent and interest.

Don't be satisfied with small seedlings. Plant worthwhile sorts. Difference in value of a single crop will pay for the trees several times over. PLANT NOW!

	Each	10
4-6 ft.	$ .30	$2.50
3-4 ft.	.25	2.00
2-3 ft.	.20	1.75



Concord Grapes

SORTS—Belle of Georgia, Champion, Crawfords Early, Crawfords Late, Elberta, Early Elberta, Hale, Heath Cling, I. B. Cling, Krummels Oct., Mayflower, Triumph, Yellow St. John.
Also few in other sorts.

APRICOTS

We recommend the J. L. Budd for this latitude. They seldom fail.
11-16 in., 65c; 5-8 in., 50c; 1-2 in., 35c.

SEEDLING APRICOT—These bear usually heavily. Not so fine as the Budd, but they are a bit hardier, perhaps.
3-4 ft., 25c; 10 for $2.00; 2-3 ft., 20c; 10 for $1.25; 100 for $8.00.

QUINCES

We grow only Orange. It is fine, reliable and early bearing.
XX grade, heavy, 80c; 10 for $6.50; 11-16 in., 60c; 10 for $5.00; 5-8 in., 50c; 10 for $4.00.

SLOES—We have only sprouts in these, but they have been inspected and are clean.
3-4 ft., 20c; 4-5 ft., 25c.

SMALL FRUITS

GRAPES

Mastodon Strawberries

Ornamental Department

We Have the Most Complete List of Wild Plants Issued. Free, if Interested

I hear some farmer saying "Don't talk ornamentals to me! Times too hard to buy anything but the most necessary!" BUT is this the case?' Let us consider that these are now selling for half their former prices, in some cases less than that. If you have the means, there is NO BETTER TIME than NOW. This even for landscaping etc. What greater saving could you make than in doing it now?

In simpler cases, where only ordinary stock is needed for shade, windbreak, etc. you can't afford to go without it. It increases in value and beauty right along. It grows whether you are awake or asleep, at home or away. Soon a $3.00 tree could not be bought from you for $25. Anything else (except bootlegging) that offers such profits? There is no danger of getting arrested for it, either, and returns are so much surer. My brother planted an evergreen windbreak about 20 years ago. He is sure that it has saved him many times its cost in feed for stock alone, not to mention their health and the great comfort to men taking care of them. Tight as money now is, 20 times the cost to him would be no inducement to cut it out. Two orders were cancelled last Fall. One on account of losing his job, the other on account of a man not being able to collect his money. The first decided to take his anyway, and pay me later. He is much ahead in the game.

NO TIME LIKE NOW TO PLANT. Cost of material is so low, and they increase in value as fast as when they cost over two times as much. PLANT NOW.

ORNAMENTAL TREES

We have very many car loads in these in a great variety of sorts and grades. If you do not find listed what you want, ask us. Likely we have it, or can secure it readily for you. We want to serve you.

Prices named include packing to travel safely to destination EXCEPT trees over 3 in. in diameter. These are loaded in cars, truck or hay rack at prices named, but the cost of packing these larger trees is often greater than the cost of the trees, to pack safe for freight shipment, except as car lots.

AILANTHUS, Tree of Paradise—3 in. $2.75; 4 to 5 in., $5.00; 6 to 8 ft., 75c; 4 to 6 ft., 30c.

ROSES

The Rose will always be a favorite flower. They are beautiful and fragrant.

Generally speaking, they are divided into the following classes:

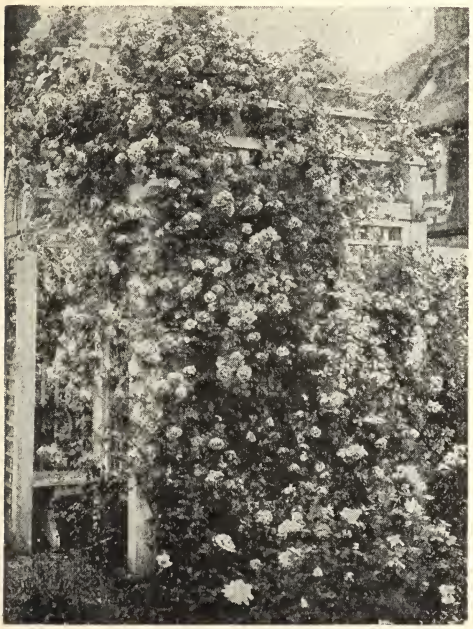
HYBRID PERPETUAL—These are much hardier than the Tea Roses. However, they also are benefited by some Winter protection. They bloom more or less freely thru the season. Flowers are less abundant and more of them are not fragrant. Also they lack the beauty of form that the Tea Roses possess. They are considered quite hardy. SORTS: Frau Karl Druschki (White), Gen'l Washington (Red), Paul Neyron (Pink), Stol de O'er (Tango) 60c each; 10 for $5.00.

HYBRID TEA—Very pretty and free bloomers, even the first year. This is the finest class, but unfortunately they are tender, needing Winter protection. If protected, they repay you with wonderful flowers throughout the season. This class is smaller than any of the others, except Humulis.

SORTS: Etoil de Lyons (Yellow), Columbia (Pink), Gruss an Teplitz (Red), Kaiserine A. V. (White). No. 1 plants, 2 yr. 70c; 10 for $6.50.

CLIMBING ROSES—They are in a variety of color. Beautiful when in bloom, tho they are only June bloomers. A great variety of color of bloom and difference in veining may be had. For a pillar rose, nothing is better than Crimson Rambler, or its offspring. For porch and lattice work, Dorothy Perkins, Excelsa, etc., are best on account of dense and rapid growth. The prairie climbers are between them, well adapted to fence or trellis work.

SORTS: Baltimore Belle (White), Blue Rambler, Dorothy Perkins, White and Pink, Dr. Van Fleet (Pink), Flower of Fairfield (Red), Excelsia (Red), Lady Gay (Silvery Pink), Queen of Prairie (Light Rose), Rosa Setigera. 40c; 10 for $3.50.



Dorothy Perkins

Dr. Van Fleet

We can do 3 yr. plants in most of the Climbers, 50c; 10 for $4.50, if you want them.

PRAIRIE ROSES—These are our natives. R. Humulis, the little prairie rose, blooms over a long season and this has a wealth of large red berries. They grow 8 to 16 in. tall. Rosa blanda (Smooth), R. lucida (Thorny and R. nitida) grows 3 to 5 ft. tall and besides the greater wealth of berries, have red stems thru winter.

Then the older class of very hardy June bloomers. Moss, Persian, etc. are of European or Asiatic origin. The Wychurian Roses originated in Asia and are of a still different type, more ever blooming and leaves add to their appearance and use as shrubs.

Rosa blanda, R. lucida, R. nitida and R. carolina from nursery rows as follows: Heavy clumps, 50c; Good medium plants, 25c; 10 for $2.00. Good rooted layers, 15c; 10 for $1.00; 100 for $8.00. Rosa humulis the Dwarf Prairie Rose in collected stock, 15c; 10 for 85c; 100 for $5.00.

PERSIAN YELLOW ROSE—15c to 40c each, as Prairie.

HARRISONS, Yellow—Same price as Persian Yellow.

GROOTENDORF—Pink and some red, double, perpetual, 3 yr. plants, 50c.

ROSA RUGOSA, mixed, mostly red, 2 to 3 ft., 25c; 3 to 4 ft., 40c; 4 to 6 ft., 60c.

BABY RAMBLERS—In white and red, several shades, same prices as H. Tea, which they closely resemble.

MOSS ROSES—Mixed colors, strong, 30c; 10 for $2.50; 100 for $18.00. Heavy, 50c; 10 for $4.00; 100 for $28.00.

Can also do other sorts, if wanted.

LANDSCAPE JOBS—While we do not pose as trained landscapists, have helped many people plan jobs that they were more than satisfied with. If we only suggest and aid, in planning, we make no charge for the work, if the sales are worthwhile. Often we make long trips for this purpose. We must charge for the trip, unless the order is a worthwhile one. Write us about it. If you want us to plan from here, bring sketch (photo, too if you have it) drawn to definite scale to show distances, location of buildings, large trees, etc. that would interfere with growing of stock, or need "Planting out". We do this before packing season, but through the packing season we are usually too busy to do it. Can't make customers who know what they want, wait until we help you to know what you want.

Will be glad to figure on your wants, if planned. Or, gladly will figure on the job, planting and all, or on the stock. Always at your service.

HARDY BULBS

PLANT IN FALL

This line includes many items listed under following sections that may be planted in Spring as Lilies, Iris, Peonies (this much better Fall. Aug. to Oct.), Liatris and others. Also many bulbous plants in Choice Wild Plants.

This section, then, covers only our usually well known line, Crocus, Grape Hyacinths, Hyacinths, Tulips and the Narcissus. PRICES are not established on these till late Summer. If interested, ask for our Fall list of these.

LILIES

Our Lilies are all grown here, acclimated to this section. Several sorts were imported, but have been growing here 2 years now, or longer.

In nearly all sorts we can do smaller bulbs at a lower price. In some a XX grade, at a higher price.

LILIUM AURATUM—Gold Banded Lily. We have only light and medium bulbs, 10c and 20c each. Seem not so well adapted here. Soon grows weak.

LILIUM CANADENSE—Perhaps the most striking of our native Lilies. Something like Superbum, but not so tall. Shape of drooping bells more striking than Superbum. 25c; 5 for $1.00.

LILIUM CANDIDUM—Fine, early, pure white. Commonly called Madonna or Annunciation Lily. Good bulbs. 20c; 3 for 50c. Other grades in this sort. Fragrant.

LILIUM, JAPANESE RED—Very hardy and profuse bloomer. Bells upright. 15c; 2 for 25c. Have both XX and lighter grades in these.

LILIUM PHILADELPHICUM—Native, very early, bells upright; 15c; 10 for $1.00.

LILIUM REGALE or Royal Lily—Fine foliage. Flower trumpet shape. Pink outside, white within, with yellowish at base. Very large and fragrant. One of the best. 25c; 5 for $1.00.

LILIUM SPECIOSUM RUBRUM—Japanese. Rather late in blooming. White with brown spots. Very graceful. Fragrant. 30c; 4 for $1.00.

LILIUM, SPIDER—Really an Amaryllis. Native throughout Tenn., etc. Flower pure white, very odd formed. Plant 7 to 8 in. deep. 25c each.

LILIUM SUPERBUM "Turks Cap Lily"—The most gorgeous of all native Lilies. Like Tiger Lily in form and color but of more artistic build. 20c each; 6 for $1.00.

LILIUM TIGERUM, or Tiger Lily—15c each; 10 for $1.00. Can do hundreds and in many grades.

LILIUM UMBULATUM—Another pretty, native Lily, like Lilium Philadelphicum, tho not so tall. 15c each; 4 for 50c.

All Lilies plant best in Fall, but may be handled in Spring, especially early spring.

Plant bulbs to be covered 5 to 7 in., except Regale, which is better for being covered 7 to 10 in. They repay you well for fertilization and good care. Auratum is the only one that seems not well adapted to our conditions here.

Can do other grades, if wanted at a corresponding price. PLANT LILIES while they are low priced. They blossom as freely and sweetly as tho there were no depression.

PEONIES

Like Lilies, these are now so cheap that you can't afford to do without them. If you put them where they have a reasonable chance, they "Stay Put". They require little care, once established.

PEONIES to color—White, pink, late violet red and early very dark red: 1 to 2 bud plants, 15c; 10 for $1.00; 3 to 5 bud plants 35c; 10 for $3.00. Whole clumps, according to size.

PEONIE, "Festiva Maxima"—White with cream center. Same price as shown above.

PEONIE, "Felix Crousse"—Very large, consistent red. One of the aristocrats. 2 to 2 bud plants, 35c; 10 for $2.50; 3 to 5 bud plants, 50c; 10 for $4.00.

PEONIE, "Officinalis rubra"—Early dark red. Strong single buds, 75c.

PEONIE, "Tunifolia"—Fringed Leaved. Same price as Officinalis rubra.

Lilium Candidum

HARDY PERENNIALS

We have large lots, one of them a full acre—here in town, besides a goodly section of them in the general nursery a mile and a half northwest of town. Also, we have the closest connection with other extensive growers in these, and exchange, or buy and sell with them and to them. Our list below is not so long as it was last year, because we have omitted many that are in our list of "Choice Wild Plants". It is most complete for all wildlings. If interested in them, a copy will be gladly sent you. We have sent out to the very best landscapists and private owners throughout the nation and many foreign countries, many millions of them in the past 20 years. We are on the ground floor. We can, and will serve you well and economically. Let us serve you in either line.

Following perennials are all nursery grown. We have many of the wild plants in nursery grown stock, too We ALWAYS miss listing some of these. Ask for anything wanted, not listed. Don't forget the List of Choice Wild Plants.

SPRAYING MATERIALS

We still handle quantities of this. Only the best. You can't afford to use any other. Labor of applying is too great to risk doubtful materials.

INSECTICIDES ARE NOT MAILABLE—Don't order by mail. Post Office won't accept.

LIQUID MATERIALS

LIME SULPHUR, Solution—We do not handle this here. Using dry Lime Sulphur only. Our price is F. O. B. St. Louis, Mo. 50 Gal. barrels, barrel included (Barrels not returnable this season). 16½c per gal. Same splendid grade we have always offered.

NICOTINE SULPHATE, Black Leaf 40—This is the most concentrate tobacco product, used for Aphis and other soft bodied, sucking insects. Harmless to the plants—it is a plant extract. Very effective for all lice, etc. 25c per ounce; ½ lb. for $1.25; 2 lb. can for $3.50; 10 lb. can F. O. B. Chicago or St. Louis for $12.50.

Mix 1 to 2 teaspoonsful to 1 Gal. water, ½ lb. 50 Gal. water. Be sure the soft bodies are hit. Deadly poison undiluted. Mixed to spray, will cause vomiting, tho no bad effect.

OIL EMULSION—U. S. Dept. Agriculture formula. We use and advise Scalecide instead. If Oil Emulsion is wanted. 50 to 55 Gal. barrels 23c per Gal. f. o. b. St. Louis, Mo. Follow standard directions for mixing. Not in stock.

SCALECIDE—This is without doubt the best, most effective dormant spray material. Easy to apply, never clogs, does not injure the pumps nor the hands and face of the operator. Its not injurious to painted surfaces it comes in contact with. Without doubt, THE perfect Dormant Spray. Trees sprayed with it for many years seem to become healthier and more thrifty. USE SCALECIDE and be safe.

50 Gal. Steel Drum here $25.00 plus $3.00 for BBL. Returnable at same price.

15 Gal. heavy drum, here $11.50, plus $2.00 for drum, returnable at same price.

10 Gal. light can, here $10.00. Can included not returnable.

5 Gal light can, here $5.00. Can included. 5 Gal., Your container for $4.75. 1 Gal. can for $1.50. Your container $1.10 per gal.

For dormant spray, mix 1 gal. to 15 gal. water, 3 gal. in 48 Gal. mixture.

Note reduction in price in barrel lots.

SULFOCIDE—Perhaps the strongest fungicide known. Be sure to mix according to directions, or browning of leaves may result. Safe and sure, if used according to directions. For Summer spray, 1 qt. to 50 gal. water; 1 gal. to 200 gal. water. Per gal. can $2.00.

This is NOT for scale control. For fungus only. A Summer spray. Not dormant.

DRY SPRAY MATERIAL

These have their advantages. No waste from freezing, keep indefinitely. If kept dry. Readily mixed, convenient. Note low prices.

ARSENATE OF LEAD

24 lb. in 4 lb. bags	18c per lb.
4 lb. bag	20c per lb.
1 lb. for	25c
½ lb. for	20c

For summer spraying, use 1 lb. to 1½ lb. for 50 gal. water. Potatoes 2 lb. for 50 gal.

ARSENATE CALCIUM (Cal. Arsenate)—1 lb. for 50 gal. water. Potatoes 2 lb. for 50 gal. water. 4 lb. bag for 60c. 1 lb., for 20c. More care is neded in using this to prevent foliage injuries.

BORDEAUX MIXTURE

24 lb. in 4 lb. bags for	$4.00
4 lb. for	.75
1 lb. for	.25

Use 8 lbs. to 50 gal. water for the best fungicide.

LIME SULPHUR, Powder—This keeps better than the liquid—simply keep it dry. Always ready, always the same quality.

For dormant spray, use 12 to 15 lbs. to 50 gal. water. For Summer spray use 3 to 4 lbs. to 50 gal. Last only as fungicide. Not effective for scale. Note reductions in price.

Following prices F. O. B. Hopedale.

100 lb. drums	12c lb. for	$12.00
50 lb. drums	13c lb. for	6.50
25 lb. drums	14c lb. for	3.50
10 lb. cans	18c lb. for	1.80
5 lb. cans	22c lb. for	1.20

If you wish quantities of this material, let us quote net on your wants, F. O. B. St. Louis, Mo. We can make very low prices on large lots.

Both Arsenates mix readily with the Summer strength of Lime Sulphur.

PARACIDE—For peach tree borers; 5 lbs. 35c; lb.,; 1 lb., for 40c.

SPRAY SPREADER—Grassalli Cassein Spreader. Use with all sprays, except emulcified oil sprays, which are self spreading. Also, use to mix Sulphocide, as directed, to prevent injury. 1 lb. for 25c; 5 lbs. for $1.00.

SULPHO TOBACCO SOAP—This is a Larkin product, of merit. It is so convenient and effective as an insecticide, fungicide and contract poison. Works in all three ways. Full directions on each package. 3 oz. cake for 10c; mailable for 13c; 8 oz. cake for 20c; mailable for 27c; 1 lb. cake for 30c; mailable for 38c.

CUCUMBER DUST—We mix this of Tobacco dust and Cal. Arsenate. Best thing we have ever used for Cucumber Beetles and before cabbage begins to head for the cabbage worms. It is also cheap and you can use it freely. It is splendid root fertilizer, too. Price mixed, 25c lb.; 5 lbs, for $1.00.

TOBACCO DUST—We carry two grades in this. One the common, rather coarse for root treatment, under carpets, in hens nests, etc. This grade 10c lb.; 3 lb. for 25c.

POULTOBAC is a better, finer Tobacco Dust. Prepared especially to feed poultry for worms. Users of this, like it. 15c per lb.; 2 lbs., for 25c.
